

Laura's Introduction

Instructions

1. Ignore how you think it should be pronounced: just copy the .mp3.
2. Use Italian vowels. *Y* is pronounced pretty much like *i*.
3. The *q* is pronounced pretty much like *k*.
4. The *ñ* is pronounced like it is in Spanish—i.e. like *n* followed by *y*.
5. Ignore the macrons (i.e. the lines above vowels).
6. The line below the bold-italicized line capitalizes the stressed syllable.
7. Again, just copy the .mp3.
