And we will kill him afterward.

Hi vizaadhimho nojaha.

hi vi-ZAA-dhim-ho NO-ja-ha.

Note: The part leading up to the *m* of *vizaadhimho* may need to go a little slower, then the rest can go quickly, with the final *aha* being a little breathless. The key will be getting the first lip contraction on the *v* of *vizaadhimho*, and then being sure the *m* of *vizaadhimho* hits the full lip pursing. After that, it should be fine.
