Her cheek tattoo - *Born of black sands. Cast by fire. Shaped by seas.*

Her neck tattoo - *We are the wind. Think on your deeds, for we are unseen, and our blade never falters.*

SCIAN's Sword

Born of black sands. Ghost Clan eternal. Blade and soul as one. All beginnings. All ends.

For Scian's tattoo, please see the attachment. We wouldn't want any more runes in the semi-circle on her forehead...

If you could try to keep his translations to that many runes/letters that would be great! a couple less runes would be fine ... but no more (otherwise it'll end up too cluttered for Art Dept's purposes)
